COMPANY PROFILE

- **We are The Modern Application Factory**
- We're a software development company focused on just one thing – software development services being **offshore**, **onshore** or **nearshore**.
- We have worked with startups, software product development companies, digital agencies and enterprises to help simplify their IT outsourcing experience and reduce costs/time-to-market.
- We have access to a very large pool of Cameroonian software developers. In the selection process we look for coding expertise and the soft skills component. Be it Java, PHP, Mobile App. , .Net, Python, or C ++. The probability is high that we have the right developer for you.
- We work with Professionals And Backed By State Of The Art Infrastructure Appropriate For Software Development.

WHY CHOOSE US

4

Based on our experience and global outsourcing relationships with top development firms in more than 5 countries, these are some of the reasons why clients continue to prefer us as their IT outsourcing partner : Competent team, honesty, trustworthiness, transparency and refined processes. Here are some other reasons that make us one of the top software development companies in Cameroon.

Modern Technologies

We use up to date technologies and software standard to build your solution.

Fierce focus on quality

We strive hard to make your outsourced engagements successful.

Cost Savings

By eliminating employee overhead costs, you'll decrease your fully-burdened cost of employee benefits, taxes, paid time off, company perks, training and retention, and gain flexibility around growing (and shrinking) team. With MODAFA you get the right quality at the right price.

Shorter Time To Market

Time to Market and Efficiency is all about cost and time savings. Productivity can also be gained.

OUR SERVICES

Web / Mobile App

We deliver build high quality software development services for both web & mobile leveraging the best platform capabilities and offering premium user-experience.

Application Maintenance

Third-party application maintenance (TMA) – Whether your IT application has been created and implemented by our company or not, our teams are capable of providing you with their maintenance services, by assuming professional responsibilities related to the necessary corrective and development measures.

OUR SERVICES

App Modernization

Transform legacy applications to state of art technologies and modern architecture to stay relevant and deliver greatest business value.

Dedicated Team

As an IT outsourcing company, we provide reliably dedicated software development teams who have vast experience in latest development technologies. In dedicated IT staffing, your project manager works directly with the software developer. Very fast, the dedicated software developer will become a part of your local team.

OUR SERVICES

IT CONSULTING

MODAFA provides you with a team of experienced consultants to help you clearly define your objectives and desired results, to develop a customized approach to your needs, balancing best practices with your speed requirements. , efficiency and flexibility.

Code Review Services

The code of your existing products will be checked thoroughly to make sure that it adheres to the best practices in terms of code reliability, maintainability, efficiency and security.

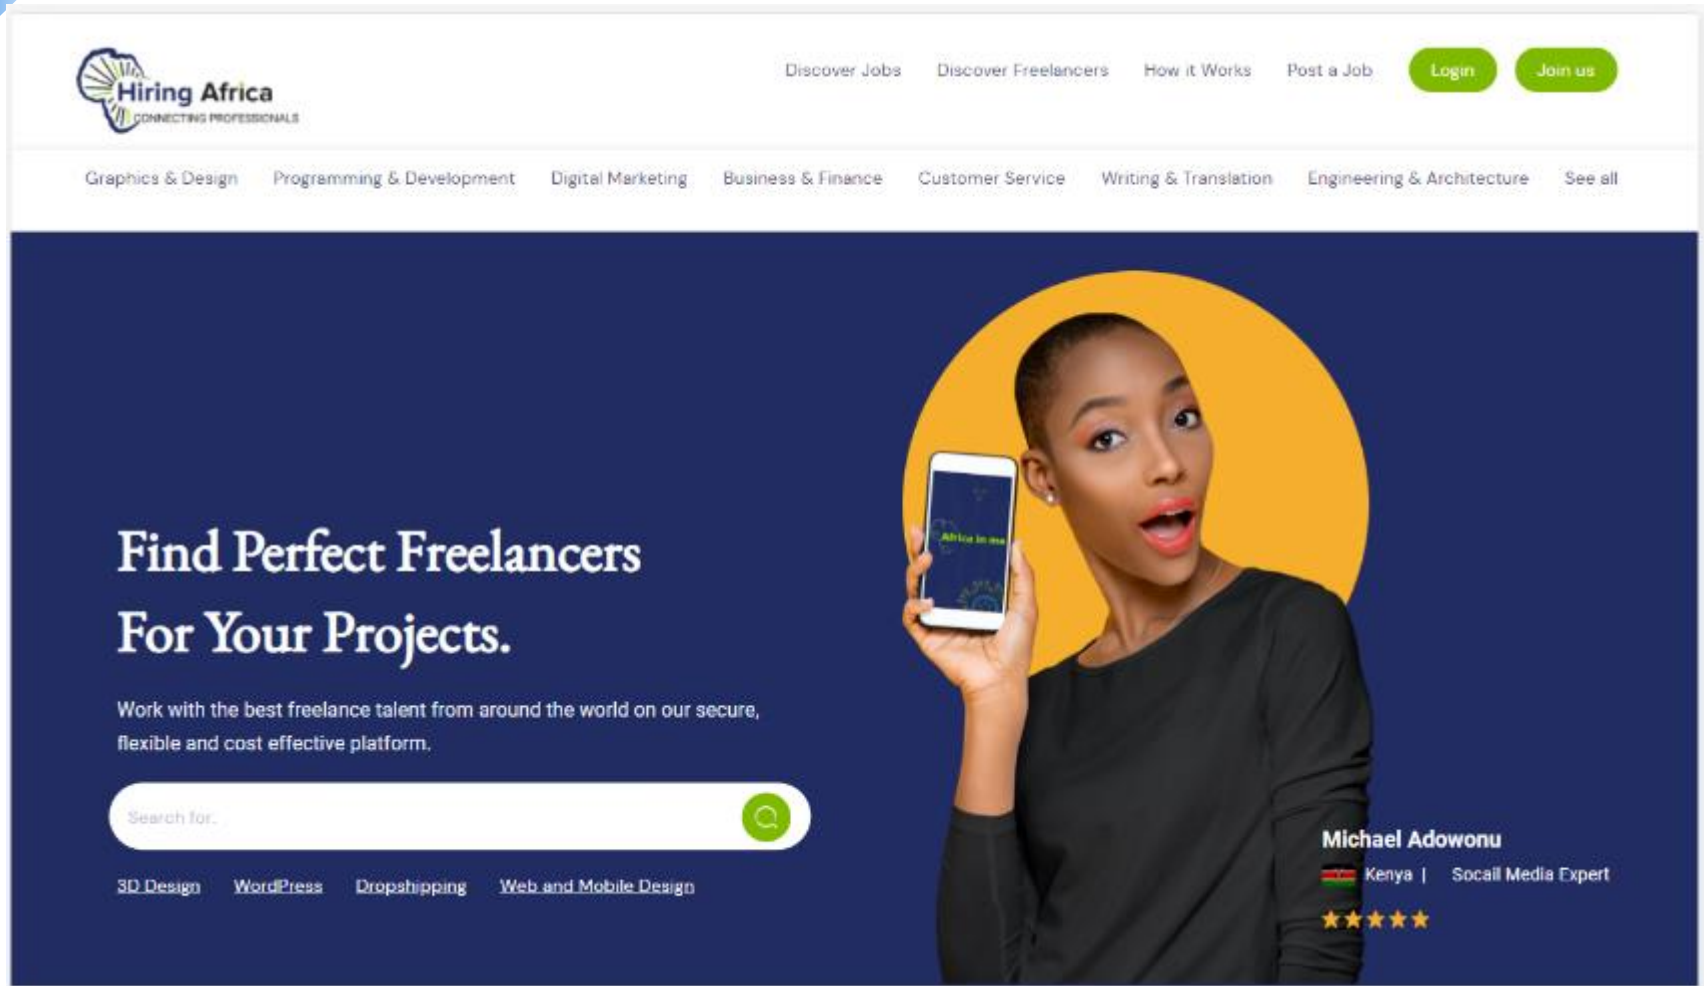

Training

We believe that Africa does not have enough qualified human resources to face the challenges of the digital transition. As such we share our know-how and experience with all young passionate people.
